

AECC is hiring a Policy Officer Intern

 Brussels |  EU Affairs |  Sustainability

Kick-start your career at the intersection of emission control technology and EU policies on air quality and climate. Support us and learn how policy is driving emission reduction innovation in following areas:

  Road Vehicles,  Non-Road Mobile Machinery,  Industrial & Stationary Applications

You will support AECC staff on

- Summarising EU policy developments
- Communicating to members
- Drafting position papers
- Advocacy outreach to EU institutions & stakeholders

Your profile

- Recent graduate or final-year student in Engineering | Environmental Science | EU Policy | Comms
- Communicative with fluent written and spoken English, working knowledge of French or German is a plus
- Proactive team-player with analytical skills
- Interest in EU policy making

The internship can be part of the academic education or a first experience after graduating, full/part-time, e.g. starting from September 2026. You will benefit from a competitive contract and from working with a friendly and experienced team at the centre of the Brussels bubble.

Apply by sending CV and motivation to info@aecc.eu **before 15 July 2026**.
